Independent Auditor's Report

**To The Honorable Members of the Board of Supervisors
County of Warren, Virginia
Front Royal, Virginia**

We have audited the accompanying financial statements of the governmental activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Warren, Virginia, as of and for the year ended June 30, 2012, which collectively comprise the County of Warren, Virginia's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County of Warren, Virginia's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Industrial Development Authority which represent 37 percent of the assets, 36 percent of the net assets and 2 percent of total operating revenues of the aggregated discretely presented component units. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Industrial Development Authority, is based on the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the report of other auditors provides a reasonable basis for our opinions.

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Warren, Virginia, as of June 30, 2012, and the respective changes in financial position, and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 5, 2012, on our consideration of the County of Warren, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and schedules of pension and OPEB funding progress be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the management's discussion and analysis and schedules of funding progress in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the management's discussion and analysis and schedules of funding progress because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Warren, Virginia's financial statements as a whole. The combining fund financial statements and schedules, and other statistical information, are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the financial statements. The combining fund financial statements and schedules, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The other statistical information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Management's Discussion and Analysis

As management of the County of Warren, we offer readers of the County of Warren's financial statements this narrative overview and analysis of the financial activities of the County of Warren for the fiscal year ended June 30, 2012. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the County's financial statements, which follow this narrative.

Financial Highlights

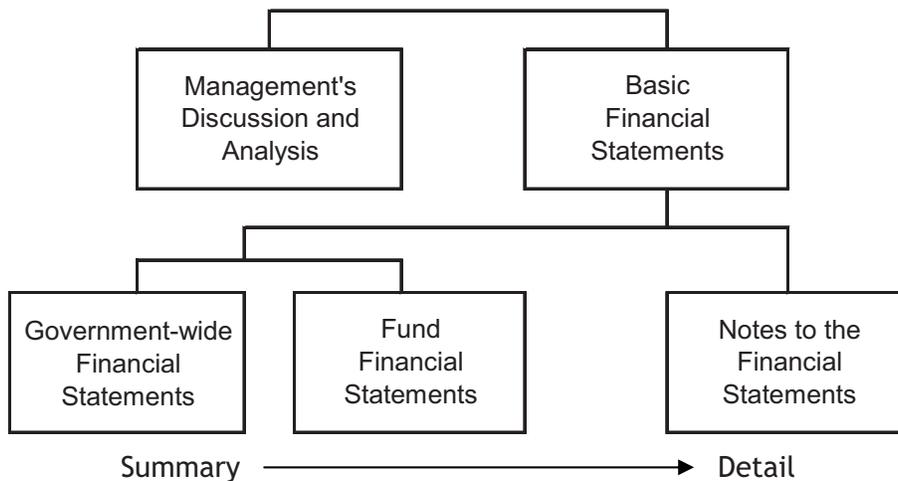

- The assets of the County of Warren exceeded its liabilities at the close of the fiscal year by \$78,414,014 (net assets), an increase of \$2,331,057.
- As of the close of the current fiscal year, the County of Warren's governmental funds (excluding the School Bond Construction Fund) reported combined ending fund balances of \$37,631,083, a decrease of \$4,305,764 from the prior year. The majority of the balance or \$37,158,332 is available for spending at the government's discretion (unassigned, assigned or committed).
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$13,757,149.
- The County of Warren's total debt decreased by \$3,825,378 during the current fiscal year. The County refinanced some existing bonds to take advantage of reduced interest rates.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to County of Warren's basic financial statements. The County's basic financial statements consist of three components; 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements (see Figure 1). The basic financial statements present two different views of the County through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of the County of Warren.

Required Components of Annual Financial Report

Figure 1

Basic Financial Statements

The first two statements (Pages 11 through 13) in the basic financial statements are the Government-wide Financial Statements. They provide both short and long-term information about the County's financial status.

The next statements (Pages 14 through 22) are Fund Financial Statements. These statements focus on the activities of the individual parts of the County's government. These statements provide more detail than the government-wide statements. There are three parts to the Fund Financial Statements: 1) the governmental funds statements; 2) the budgetary comparison statements; and 3) the fiduciary fund statements.

The next section of the basic financial statements is the notes. The notes to the financial statements explain in detail some of the data contained in those statements. After the notes, supplemental information is provided to show details about the County's individual funds.

Government-wide Financial Statements

The government-wide financial statements are designed to provide the reader with a broad overview of the County's finances, similar in format to a financial statement of a private-sector business. The government-wide statements provide short and long-term information about the County's financial status as a whole.

The two government-wide statements report the County's net assets and how they have changed. Net assets are the difference between the County's total assets and total liabilities. Measuring net assets is one way to gauge the County's financial condition.

The government-wide statements are divided into two categories: 1) governmental activities; and 2) component units. The governmental activities include most of the County's basic services such as public safety, parks and recreation, and general administration. Property taxes and state and federal grant funds finance most of these activities. The second category is the component unit. Although legally separate from the County, the Industrial Development Authority is important to the County because the County exercises control over the Board by appointing its members. The Industrial Development Authority issues separate financial statements.

Although the School Board is a component unit, approximately 55% of the budget for the County of Warren is designated for the public schools. The members of the School Board are elected.

The government-wide financial statements are on Pages 11 through 13 of this report.

Fund Financial Statements

The fund financial statements (Pages 14 through 22) provide a more detailed look at the County's most significant activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County of Warren, like all other governmental entities in Virginia, uses fund accounting to ensure and reflect compliance (or non-compliance) with finance-related legal requirements. All of the funds of County of Warren are categorized as governmental funds.

Fund Financial Statements: (Continued)

Governmental Funds - Governmental funds are used to account for those functions reported as governmental activities in the government-wide financial statements. All of the County's basic services are accounted for in governmental funds. These funds focus on how assets can readily be converted into cash flow in and out, and what monies are left at year-end that will be available for spending in the next year. Governmental funds are reported using an accounting method called *modified accrual accounting* which provides a short-term spending focus. As a result, the governmental fund financial statements give the reader a detailed short-term view that helps him or her determine if there are more or less financial resources available to finance the County's programs. The relationship between government activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is described in a reconciliation that is a part of the fund financial statements.

The County of Warren adopts an annual budget for its General Fund. The budget is a legally adopted document that incorporates input from the citizens of the County, the management of the County, and the decisions of the Board about which services to provide and how to pay for them. It also authorizes the County to obtain funds from identified sources to finance these current period activities. The budgetary statement provided for the General Fund demonstrates how well the County complied with the appropriation resolution and whether or not the County succeeded in providing the services as planned when the budget was adopted. The budgetary comparison statement uses the budgetary basis of accounting and is presented using the same format, language, and classifications as the legal budget document. The statement shows four columns: 1) the original budget as adopted by the board; 2) the final budget as amended by the board; 3) the actual resources, charges to appropriations, and ending balances in the General Fund; and 4) the difference or variance between the final budget and the actual resources and charges.

Notes to the Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are on pages 23 through 56 of this report.

Other Information - In addition to the basic financial statements and accompanying notes, this report includes certain required supplementary information concerning the County of Warren's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found on pages 57 through 59 of this report.

Government-Wide Financial Analysis

The presentation of government-wide financial statements for the fiscal year ended June 30, 2003, was the beginning of a new era in financial reporting for the County of Warren, and many other units of government across the United States. Prior to that year, the County of Warren maintained their governmental fund groups as separate and very distinct types of accounting without any type of consolidated statement that accurately reflected the operations and net assets of the government as a whole. There was a total column that appeared on the financial statements, but it was a memorandum total only. No attempt was made to adjust the statements in such a way that the total column would represent the overall financial condition of the County of Warren. These statements were basically the equivalent of the fund financial statements that appear in this report with fiduciary funds added in.

The changes in the financial statement reporting model are mandated by the Governmental Accounting Standards Board (GASB). GASB Statement 34 dictated the changes you see in the County of Warren's financial reports as well as those of many other units of government. While the County of Warren was required to implement these changes for the fiscal year ended June 30, 2003, other units were not required to implement until 2004.

Government-Wide Financial Analysis: (Continued)

The County of Warren's Net Assets

Figure 2

	Governmental Activities	
	2012	2011
Current and other assets	\$ 58,910,354	\$ 75,563,761
Capital assets	151,908,991	146,078,468
Total assets	<u>\$ 210,819,345</u>	<u>\$ 221,642,229</u>
Long-term liabilities outstanding	\$ 117,501,936	\$ 121,327,314
Other liabilities	14,903,395	24,231,958
Total liabilities	<u>\$ 132,405,331</u>	<u>\$ 145,559,272</u>
Net assets:		
Invested in capital assets, net of related debt	\$ 39,807,455	\$ 33,051,889
Restricted	472,751	404,906
Unrestricted	38,133,808	42,626,162
Total net assets	<u>\$ 78,414,014</u>	<u>\$ 76,082,957</u>

As noted earlier, net assets may serve over time as one useful indicator of a government's financial condition. The assets of the County of Warren exceeded liabilities by \$78,414,014 as of June 30, 2012, compared to \$76,082,957 as of June 30, 2011. Fifty-one percent of net assets reflects the County's investment in capital assets (e.g. land, buildings, machinery, vehicles, and equipment) less any related debt still outstanding that was issued to acquire those items. The County of Warren uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County of Warren's investment in its capital assets is reported net of the outstanding related debt, the resources needed to repay that debt must be provided by other sources, since the capital assets cannot be used to liquidate these liabilities. The remaining balance of unrestricted net assets (\$38,133,808) may be used to meet the government's ongoing obligations to citizens and creditors.

Several particular aspects of the County's financial operations influenced the total unrestricted governmental net assets:

- Capital asset additions (expenditures capitalized) exceeded depreciation expense by \$5.8 million.
- Collection of real property and personal property taxes exceeded the amount budgeted by \$309,349 and \$535,346, respectively.
- Revenue from use of money came in under the budgeted amount by \$490,703 in FY 2012, due to continued lower interest rates experienced in the economic downturn.
- Receipts from machinery and tools tax exceeded budget by \$7,085.
- Sales tax revenue was more than projected by \$81,603 due to a modest increase in sales.
- Revenue from building permits came in under budget by \$130,105 due to the continued faltering housing sector of the economy.
- With the stagnant condition of home sales, recordation taxes was under budget by \$70,588.
- Revenue from business licenses was over budget by \$106,752, mainly due to the start of construction of the Dominion power plant.

Government-Wide Financial Analysis: (Continued)

Financial Analysis of the County's Funds

As noted earlier, the County of Warren uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the County of Warren's governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing the County of Warren's financing requirements. Specifically, unreserved fund balance can be a useful measure of a government's net resources available for spending at the end of the fiscal year.

Financial Analysis of the County's Funds: (Continued)

The general fund is the chief operating fund of the County of Warren. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$13,757,149, an increase of \$190,443 from last year. Included in the original budget for FY2011-2012, there were miscellaneous capital items to be funded from this unreserved fund balance which would have meant that this balance would have decreased by \$640,000. Due to sound fiscal management, fund balance for the general fund experienced an increase of \$190,443 instead of the \$640,000 projected and budgeted decrease.

At June 30, 2012, the governmental funds of County of Warren reported a combined fund balance of \$37,885,313, a decrease of \$8,641,330 from last year. This change mainly resulted from the payment of construction costs of the public safety building and continued planned use of set aside funds for school debt service.

General Fund Budgetary Highlights: During the fiscal year, the County revised the budget on several occasions. Generally, budget amendments fall into one of three categories: 1) amendments made to adjust the estimates that are used to prepare the original appropriation resolution once exact information is available; 2) amendments made to recognize new funding amounts from external sources, such as Federal and State grants; and 3) increases in appropriations that become necessary to maintain services.

Revenues were less than budgeted primarily due to a continued slump in residential construction which resulted in fewer building license fees (\$130,105 less than budgeted) and a decrease in recordation taxes (\$70,588 less than budgeted) due to fewer home sales.

Revenue from the use of money was under budget by \$490,703 due to the continuing decline in interest rates paid by financial institutions.

Due to modest a modest increase in retail sales, sales tax revenue came in more than budgeted by \$81,603.

Capital Asset and Debt Administration

Capital assets. The County of Warren's investment in capital assets for its governmental activities as of June 30, 2012, totals \$151,908,991 (net of accumulated depreciation). These assets include buildings, land, machinery and equipment, park facilities, vehicles, a new high school, renovation of an existing school for a second high school, renovation of the former high school for a middle school and a new public safety building.

Capital Asset and Debt Administration: (Continued)

	Governmental Activities	
	2012	2011
Land	\$ 11,322,771	\$ 10,830,169
Buildings and improvements	123,501,606	100,819,236
Machinery and equipment	1,468,572	1,758,737
Non-depreciable capital assets	387,070	387,070
Construction in progress	15,228,972	32,283,256
Total	\$ 151,908,991	\$ 146,078,468

Additional information on the County's capital assets can be found in Note 6 - Capital Assets of the Basic Financial Statements.

Long-term Debt. As of June 30, 2012, the County of Warren had total bonded debt outstanding of \$107,990,065. General obligation bond debt is backed by the full faith and credit of the County. The table below includes both revenue and general obligation bonds.

General Obligation and Revenue Bonds

Figure 3

	Governmental Activities	
	2012	2011
General obligation and lease revenue bonds	\$ 107,990,065	\$ 115,396,197
Total	\$ 107,990,065	\$ 115,396,197

As part of a multi-year school construction funding plan, in FY 2004, the County was reviewed by the three national municipal bond rating agencies: Moody's Investors Service, Standard & Poor's and FITCH IBCA, Inc. Discussions with each of the agencies covered financial, economic, debt-related and management-related issues among others. Without exception, all three agencies were favorably impressed with the fiscal health of the County, the diligence and stability of Staff and elected officials and the overall vibrancy of the County economy as evidenced by the strong investment grade General Obligation bond ratings secured from the agencies. (Moody's: A2, S&P: A+ (recently upgraded to AA-), FITCH: A+) These credit ratings helped the County secure favorable long-term financing for the Phase 1 school projects and will help to ensure that the County is able to maximize its borrowing ability in the future. Given the magnitude of recent and future proposed borrowings, the County Board of Supervisors has formally adopted a series of Fiscal Policy Guidelines so as to better manage and measure fiscal matters.

Additional information regarding the County of Warren's long-term debt can be found in Note 7 - Long-Term Obligations of this report.

Economic Factors and Next Year's Budgets and Rates

The following key economic indicators reflect the growth and prosperity of the County.

- Unemployment. Warren County's unemployment rate as of October 2012 was 5.0%, lower than the State average of 5.4%.
- New jobs. The County added approximately 100 new jobs last year.
- Commercial development. The County currently has two shopping centers (Crooked Run and Riverton Commons) where stores have been opening since July 2007. The Crooked Run Shopping Center has been completed with Target as the anchor store. The County has approved Phase II of the Crooked Run Shopping Center and Cedarville Center for additional retail and restaurant pads. The Riverton Commons Shopping Center includes a Wal-Mart Supercenter and Lowe's as anchors. The strip center is at approximately 80% occupancy and all but three of the pad sites have been completed.
- Industrial development. The County, in conjunction with the Front Royal-Warren County Economic Development Authority, continues to market the community to several large industrial prospects. It is anticipated that the County will be able to attract some additional significant industrial investment into the County in the 2012-2013 fiscal year.

Budget Highlights for the Fiscal Year Ending June 30, 2013

Governmental Activities: The FY 2012-2013 budget process again proved to be a difficult one given the slowdown in construction in the area and continued State budget cuts. Projected revenues for the General Fund and School Operating Fund (excluding use of Fund Balance) are slightly more (3.76%) than those of FY 2011-2012. The increase results from an expected increase in state and federal funding for schools and an expected increase in property taxes and sales tax due to the construction of the Dominion Power Plant. The FY2013 Budget was adopted with no increase in the real estate tax rate. Other tax rates remained the same as well. The County is funding a salary increase equivalent to 2.00% of total salaries for the School Board and County staff from fund balance. In the FY 2013-2014 budget and out years, this will be funded by anticipated revenue from the Dominion Power Plant.

Budgeted expenditures in the General Fund (excluding the local appropriation to the school fund) amounted to \$39,831,406.

The General Fund budget also includes \$1,414,770 for Enterprise Zone Grants. This amount includes the total estimated amount of real estate and machinery and tools taxes to be paid by qualifying businesses. The unused portion will be used by the County to fund school capital improvements, including debt service on the 2004 bonds.

Requests for Information

This report is designed to provide an overview of the County's finances for those with an interest in this area. Questions concerning any of the information found in this report or requests for additional information should be directed to the County Administrator, County of Warren, 220 N. Commerce Avenue, Front Royal, VA 22630.

Reconciliation of the Balance Sheet of Governmental Funds
 To the Statement of Net Assets
 June 30, 2012

Total fund balances per Exhibit 3 - Balance Sheet - Governmental Funds \$ 37,885,313

Amounts reported for governmental activities in the statement of net assets are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.

Capital assets, cost	\$ 173,641,949	
Less: accumulated depreciation	(21,732,958)	151,908,991

Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds.

Deferred revenue	\$ 4,262,429	
Unamortized bond issue costs	1,739,092	6,001,521

Internal service funds are used by management to charge the costs of certain activities, such as self-insurance, to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net assets. 1,160,691

Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds. These liabilities consist of:

Bonds & loans payable, net of discount, premium & deferred loss on refunding	(113,598,709)	
Interest payable	(1,040,566)	
Capital lease obligations	(496,150)	
Compensated absences	(1,114,085)	
Landfill closure & postclosure liability	(584,492)	
Other post employment benefits liability	(1,708,500)	(118,542,502)

Net assets of governmental activities \$ 78,414,014

The notes to the financial statements are an integral part of this statement.

The notes to the financial statements are an integral part of this statement.

Reconciliation of Statement of Revenues,
Expenditures, and Changes in Fund Balances of Governmental Funds
To the Statement of Activities
For the Year Ended June 30, 2012

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$	(8,641,330)
--	----	-------------

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded depreciation in the current period.

Capital asset additions	\$	9,269,524	
Depreciation expense		<u>(3,439,001)</u>	5,830,523

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	678,009
--	---------

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Issuance of long-term debt including premiums	\$	(87,859,925)	
(Increase) decrease in landfill closure & postclosure liability		(13,699)	
Payment to refunding bond escrow agent		86,013,379	
Bond issue costs capitalized		1,655,746	
Principal payments, discount and premium amortization		<u>4,758,286</u>	4,553,787

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds. The following are the details of these adjustments:

Amortization of bond issue costs	(20,611)	
(Increase) decrease accrued interest payable	669,768	
(Increase) decrease in other post employment benefits liability	(449,800)	
(Increase) decrease in compensated absences	<u>(10,130)</u>	189,227

Internal service funds are used by management to charge the costs of certain activities, such as insurance to individual funds. The net revenue (expense) of certain internal service funds is reported with governmental activities.

Insurance premiums, internal service fund - reported as charges for services on Exhibit 2	2,144,691	
Insurance claims, internal service fund - reported as expense in the respective function on Exhibit 2	(1,979,283)	
Transfer out, internal service fund - reported as expense in the respective fund on Exhibit 2	<u>(444,567)</u>	(279,159)

Change in net assets of governmental activities	\$	<u><u>2,331,057</u></u>
---	----	-------------------------

The notes to the financial statements are an integral part of this statement.

COUNTY OF WARREN, VIRGINIA

Notes to Financial Statements
June 30, 2012

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The County of Warren, Virginia operates under a traditional form of government with a Board of Supervisors, county administrator, and elected constitutional officers. It provides its citizens with services relating to public safety, public works, health and welfare services, education, community and economic development, and judicial and general administrative services.

The financial statements of the County of Warren, Virginia have been prepared in conformity with the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia, and the accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board. The more significant of the government's accounting policies are described below.

These financial statements present the County (primary government) and its component units. The component units discussed below are included in the County's reporting entity because of the significance of their operational or financial relationships with the County.

Warren County Public Schools:

Warren County Public Schools (the "Schools") is responsible for elementary and secondary education within the County. The Schools are fiscally dependent on the County because the Schools' operational and capital budgets are approved by the County Board of Supervisors. In addition, the Schools are prohibited from issuing bonded debt without the approval of the County Board of Supervisors.

The Schools report four special revenue funds (school operating, cafeteria, textbook, and vocational building funds), one capital projects fund (school capital improvements fund), all of which are accounted for as governmental funds. The Schools report one internal service fund (self-insurance fund) as a proprietary fund.

Industrial Development Authority of the Town of Front Royal and the County of Warren, Virginia:

The Industrial Development Authority of the Town of Front Royal and the County of Warren, Virginia (the "Authority") was created as a political subdivision of the Commonwealth of Virginia by ordinance of the Town Council of the Town of Front Royal and the Board of Supervisors of the County to be effective on December 21, 1967 pursuant to the provisions of the Economic Development and Revenue Bond Act. The Authority is governed by seven directors appointed by the Town of Front Royal and the County. The Authority is fiscally dependent on the County. County contributions accounted for approximately 48% percent of the Industrial Development Authority's revenues during fiscal year 2012. The Authority is accounted for as a proprietary fund and uses the accrual basis of accounting.

Complete financial statements of the Industrial Development Authority of the Town of Front Royal and the County of Warren, Virginia may be obtained at the Authority's administrative offices.

A. Government-wide and Fund Financial Statements

Management's Discussion and Analysis - GASB Statement No. 34 requires the financial statements be accompanied by a narrative introduction and analytical overview of the government's financial activities in the form of "Management's Discussion and Analysis" (MD&A).

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

A. Government-wide and Fund Financial Statements: (Continued)

Government-wide financial statements - The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities but also capital assets and long-term liabilities (such as buildings and general obligation debt).

The government-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its component unit. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

Statement of Net Assets - The Statement of Net Assets is designed to display financial position of the primary government (government and business-type activities) and its discretely presented component units. Governments will report all capital assets in the government-wide Statement of Net Assets and will report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net assets of a government will be broken down into three categories - 1) invested in capital assets, net of related debt; 2) restricted; and 3) unrestricted.

Statement of Activities - The new government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Budgetary comparison schedules - Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. Under the GASB 34 reporting model, governments provide budgetary comparison information in their annual report including the government's original budget to the current comparison of final budget and actual results.

COUNTY OF WARREN, VIRGINIA

Notes to Financial Statements

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

B. Other Related Organizations

Included in the County's Financial Report

None

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation:

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

The County applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989 unless these pronouncements conflict with or contradict GASB pronouncements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues, (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The County's fiduciary funds are presented in the fund financial statements by type. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation: (Continued)

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as deferred revenues. Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the County, are recognized as revenues and receivables upon collection by the state or utility, which is generally within two months preceding receipt by the County.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state, and other grants for the purpose of funding specific expenditures are either recognized when earned, at the time other specific expenditures are recognized or at the time of the specific expenditure. Revenues from general purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when cash is received by the government.

In the fund financial statements, financial transactions and accounts of the County are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

Proprietary funds (internal service funds) distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the internal service funds are insurance premiums. Operating expenses include insurance claims and other expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

1. Governmental Funds

Governmental Funds are those through which most governmental functions typically are financed. The County reports the general fund as a major governmental fund.

The general fund is the primary operating fund of the County. This fund is used to account for and report all financial transactions and resources except those required to be accounted for and reported in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, and interest income. A significant part of the General Fund's revenues is used principally to finance the operations of the component unit school board. The General Fund is considered a major fund for government-wide reporting purposes.

COUNTY OF WARREN, VIRGINIA

Notes to Financial Statements

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation: (Continued)

1. Governmental Funds: (Continued)

Capital Projects Funds - The Capital Projects Funds account for and report financial resources that are restricted, committed or assigned to expenditure for capital outlays, except for those financed by proprietary funds or for assets held in trust for individuals, private organizations, or other governments. The County reports the special projects and school bond construction funds as major capital projects funds and the general capital projects fund as a non-major capital project fund.

Special Revenue Funds - Special revenue funds account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. Special revenue funds consist of the following funds: Drug Forfeitures, Proffers, and Sanitary District. All of the above funds are reported as non-major funds.

Fiduciary Funds - (Trust and Agency Funds) - account for assets held by the County unit in a trustee capacity or as an agent or custodian for individuals, private organizations, other governmental units, or other funds. These funds include private purpose trust and agency funds. Private purpose trust funds utilize the accrual basis of accounting as described in the proprietary funds presentation. Agency funds utilize the accrual basis of accounting described in the governmental fund presentation. Fiduciary funds are not included in the government-wide financial statements. The following private-purpose trust funds are reported: Woodward Cook Scholarship Fund, the Elizabeth Denny Scholarship Fund, the Warren County Education Foundation Fund, the Louise Bolling Scholarship Fund, the Winnie Nicholls Scholarship Fund, and the Thompson Scholarship Fund. The following agency funds are reported: Special Welfare Fund, Undistributed Local Sales Tax Fund, Flexible Spending Fund, Northern Warren Fire Department Building Fund, and the Shenandoah Farms Volunteer Fire Department Fund.

Proprietary Funds - account for operations that are financed in a manner similar to private business enterprises. The Proprietary Fund measurement focus is upon determination of net income, financial position, and changes in financial position. Proprietary Funds of the County consist of Internal Service Funds.

Internal Service Funds - account for the financing of goods and services provided to other departments or agencies of the government, or to other governments, on a cost reimbursement basis. Internal Service Funds consist of Health Insurance Funds reported by the Primary Government and the Component Unit-School Board.

D. Budgets and Budgetary Accounting:

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements.

1. Prior to March 30, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted to obtain citizen comments.

COUNTY OF WARREN, VIRGINIA

Notes to Financial Statements
June 30, 2012 (Continued)

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

D. Budgets and Budgetary Accounting: (Continued)

3. The budget is legally enacted through passage of appropriation resolutions.
4. The appropriations resolutions place legal restrictions on expenditures at the department level or category level. The appropriation for each department or category can be revised only by the Board of Supervisors. The School Board is authorized to transfer budgeted amounts within the school system's categories.
5. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
6. Appropriations lapse on June 30, for all County Departments.
7. Both the original and amended budget are presented in the accompanying financial statements.

The following General Fund departments reported actual expenditures in excess of appropriations:

- Sheriff
- Various capital projects

Additionally the following nonmajor and Component Unit funds reported actual expenditures in excess of appropriations:

- Drug forfeiture fund
- School bond construction fund
- School Cafeteria Fund
- School Textbook Fund
- School Vocational Fund

E. Cash and Cash Equivalents:

The County's cash and cash equivalents consist of demand deposits and certificates of deposits with an initial maturity date of less than three months.

F. Allowance for Uncollectible Accounts:

The County calculates its allowance for uncollectible accounts using the historical collection data and, in certain cases, specific account analysis. The allowance attributed to property taxes amounted to \$1,194,699 at June 30, 2012.

G. Capital Assets:

Capital assets, which include property, equipment, and vehicles, are reported in the applicable governmental column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of at least \$5,000 and an estimated useful life of multiple years. Such assets are recorded at historical cost or estimated historical cost using the consumer price inflationary index.

COUNTY OF WARREN, VIRGINIA

Notes to Financial Statements
June 30, 2012 (Continued)

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

G. Capital Assets: (Continued)

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized.

Property, equipment, and vehicles of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful lives:

Buildings and improvements	50 years
Vehicles	5 years
School buses	12 years
Equipment	5 to 7 years

H. Deferred Charges:

Deferred charges, primarily bond-related costs, are amortized over the life of the related bond issue using the straight-line method.

I. Compensated Absences:

County and school employees earn vacation and sick leave at various rates up to a specified amount of days. Accumulated vacation and sick leave is paid upon termination. All vacation and sick pay is accrued when incurred in the government-wide financial statements. At June 30, 2012, leave liabilities of the County amounted to \$647,247 of outstanding vacation accruals, \$294,660 of outstanding compensatory time and \$172,178 of outstanding sick accruals, representing a net increase of \$10,130. At June 30, 2012, leave liabilities of the Schools amounted to \$744,847 of outstanding vacation accruals, \$386,930 of personal leave time and \$410,046 of outstanding sick accruals, representing a net increase of \$105,333.

J. Long-term Obligations:

In the government-wide financial statements, long-term debt and other long-term and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond issuance costs are deferred and amortized over the life of the bonds using the straight-line method. In the fund financial statements, governmental fund types recognize bond issuance costs in the current period.

K. Net Assets/Fund Equity:

Net assets in the government-wide financial statements are classified as invested in capital assets, net of related debt; restricted; and unrestricted. Restricted net assets represent constraints on resources that are either externally imposed by creditors, grantors, contributors, or laws or regulations of other government or imposed by law through state statute.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

K. Net Assets/Fund Equity: (Continued)

GASB Statement 54, Fund Balance Reporting and Governmental Fund Type Definitions provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance - amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact (corpus of a permanent fund);
- Restricted fund balance - amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance - amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;
- Assigned fund balance - amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- Unassigned fund balance - amounts that are available for any purpose; positive amounts are only reported in the general fund.

When fund balance resources are available for a specific purpose in more than one classification, it is the County's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

The County establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund. Assigned fund balance is established by the Board of Supervisors through adoption or amendment of the budget as intended for specific purpose (such as the purchase of capital assets, construction, debt service, or for other purposes).

L. Property Taxes Receivable:

Property is assessed at its value on January 1. Property taxes attach as an enforceable lien on property as of January 1. Taxes are payable in one installment on December 5th. The County bills and collects its own property taxes.

M. Restricted Assets:

The County reports restricted net assets in the amount of \$472,751 (Exhibit 1). The net assets are restricted for specific capital projects as a result of proffers received and for public safety. The restricted amounts are reported in separate funds in the fund financial statements.

COUNTY OF WARREN, VIRGINIA

Notes to Financial Statements
June 30, 2012 (Continued)

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

M. Restricted Assets:

The Industrial Development Authority reports restricted net assets in the amount of \$2,205. The net assets are restricted by outside donors to be used for scholarships.

The County reports restricted assets from unspent bond proceeds in the amount of \$254,230 to be used for construction.

NOTE 2—DEPOSITS AND INVESTMENTS:

Deposits

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the “Act”), Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments

Statutes authorize the County to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, “prime quality” commercial paper and certain corporate notes, banker’s acceptances, repurchase agreements and the State Treasurer’s Local Government Investment Pool (LGIP).

The County does not have an investment policy that addresses the various types of risks related to investments.

Credit Risk of Debt Securities

The County’s rated debt investments as of June 30, 2012 were rated by Standard and Poor’s and the ratings are presented below using Standard and Poor’s rating scale.

Locality's Rated Debt Investments' Values

<u>Rated Debt Investments</u>	<u>Fair Quality Ratings</u>				
	<u>AAA</u>	<u>AA</u>	<u>A</u>	<u>A1</u>	<u>Unrated</u>
Local Government Investment Pool	\$ 1,455,366	\$ -	\$ -	\$ -	\$ -
Total	\$ 1,455,366	\$ -	\$ -	\$ -	\$ -

COUNTY OF WARREN, VIRGINIA

Notes to Financial Statements
June 30, 2012 (Continued)

NOTE 2—DEPOSITS AND INVESTMENTS: (CONTINUED)

External Investment Pools

The fair values of the positions in the Local Government Investment Pool (LGIP) are the same as the value of the pool shares. As this pool is not SEC registered, regulatory oversight of the pool rests with the Virginia State Treasury. LGIP maintains a policy to operate in a manner consistent with SEC Rule 2a-7.

NOTE 3—INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS:

Interfund balances at June 30, 2012 were as follows:

<u>Fund</u>	<u>Interfund receivable</u>	<u>Interfund payable</u>
Major funds:		
General	\$ 574,862	\$ -
Nonmajor governmental funds:		
Sanitary districts	-	320
Agency funds:		
Undistributed local sales tax fund	-	569,542
Flexible spending fund	-	5,000
	<u> </u>	<u> </u>
Total	\$ <u>574,862</u>	\$ <u>574,862</u>

Interfund transfers for the year ended June 30, 2012 were as follows:

<u>Fund</u>	<u>Transfer In</u>	<u>Transfer Out</u>
Major funds:		
General	\$ 10,872,140	\$ 1,460,042
Special projects	1,702,373	6,220,749
School bond construction fund	200,532	4,339,817
Nonmajor governmental funds:		
Proffers	-	25,000
Sanitary districts	30,402	315,272
Internal service fund:		
County health insurance fund	-	444,567
	<u> </u>	<u> </u>
Total	\$ <u>12,805,447</u>	\$ <u>12,805,447</u>

Transfers between major funds and other nonmajor governmental funds were primarily to support operations of the funds.

- 1) Legislation enacted during the year ended June 30, 2002, Section 15.2-1800.1 of the Code of Virginia 1950, as amended, has changed the reporting of local capital assets and related debt for financial statement purposes. Historically, debt incurred by local governments "on-behalf" of school boards was reported in the school board's discrete column along with the related capital assets. Under the law, local governments have a "tenancy in common" with the school board whenever the locality incurs any financial obligation for any school property which is payable over more than one year. For financial reporting purposes, the legislation permits the locality to report the portion of school property related to any outstanding financial obligation eliminating any potential deficit from capitalizing assets financed with debt. The effect on the County of Warren, Virginia for the year ended June 30, 2012, is that school financed assets in the amount of \$106,251,513 are reported in the Primary Government for financial reporting purposes.

NOTE 7—LONG-TERM OBLIGATIONS: (CONTINUED)

Primary Government: (Continued)

Details of the primary government's debt at June 30, 2012 are as follows:

	<u>Amount Outstanding</u>
<u>General obligation bonds</u>	
\$3,692,300 general obligation refunding bonds issued December 16, 2009 to completely defease the outstanding balance of the \$3.5 million general obligation bonds issued on December 15, 1998 and provide financing for courthouse improvements. The refunding general obligation bonds are payable in variable amounts; interest rate of 3.09% through December 2023.	\$ 3,281,800
\$7,500,000 public facility bonds through Build America Bonds, issued May 25, 2010. The bonds were issued in anticipation of a literary loan to finance school construction. Interest is payable through March 2014 when the outstanding balance (\$7.5 million) is payable. Interest is payable at 4.02%. The County will receive a Build America Bond subsidy to effectively reduce interest to a rate of 2.61%.	7,500,000
\$23,620,000 general obligation school bonds issued September 12, 1995, payable in variable amounts; interest rate of 5.75% through July 15, 2015.	<u>4,740,000</u>
Total general obligation bonds	\$ <u>15,521,800</u>
<u>Lease Revenue Bonds and Notes:</u>	
\$68,265,000 school lease revenue bonds series 2004B, issued October 1, 2004, payable in variable amounts and interest rates (3.00% to 5.00%) through 2035. During FY 2012 the bonds were partially refunded in the amount of \$58,785,000. The outstanding balance will be paid over the original bond financing agreement through 2015.	\$ 4,990,000
\$13,416,124 (including premium of \$686,698) general obligation school bonds issued November 8, 2007, payable in variable amounts; interest rate of 5.1% through July 15, 2028.	10,478,265
\$45,700,000 lease revenue refunding bonds Series 2011B, issued November 16, 2011, payable in variable amounts; with variable interest rates of 2.125% to 5.125%, through October 1, 2028. The bonds were issued to partially refund Series 2004B lease revenue bonds and refund the outstanding balance of the Series 2009 lease revenue refunding bonds for an economic gain of \$3,013,688.	45,700,000
\$31,300,000 lease revenue refunding bonds Series 2012A, issued June 13, 2012, payable in variable amounts; with variable interest rates of 4.524% to 5.125%, through April 1, 2035. The bonds were issued to partially refund the Series 2004B lease revenue bonds for an economic gain of \$2,342,981.	<u>31,300,000</u>
Total lease revenue bonds and notes	\$ <u>92,468,265</u>
Total general obligation and lease revenue bonds	\$ <u><u>107,990,065</u></u>

NOTE 8—LEASES:

Primary Government:

Capital leases

The County has entered into various lease agreements as the lessee for financing the acquisition of vehicles for use in the sheriff's department, recreation and parks, and the general government; equipment for county administration and the recreation and parks department; and lease purchase of a building. These lease agreements qualify as capital leases for accounting purposes and therefore, have been recorded at the present value of their future minimum lease payments as of the inception date. The school board has entered into a lease agreement for financing the acquisition of school buses.

COUNTY OF WARREN, VIRGINIA

Less: amount representing interest	10,664	23,233
Present value of minimum lease payments	<u>\$ 496,150</u>	<u>\$ 297,878</u>

NOTE 9—DEFINED PENSION BENEFIT OBLIGATION:

A. Plan Description

Name of Plan: Virginia Retirement System (VRS)
Identification of Plan: Agent and Cost-Sharing Multiple-Employer Defined Benefit Pension Plan
Administering Entity: Virginia Retirement System (System)

All full-time, salaried permanent (professional) employees of public school divisions and employees of participating employers are automatically covered by VRS upon employment. Benefits vest after five years of service credit. Members earn one month of service credit for each month they are employed and their employer is paying into the VRS. Members are eligible to purchase prior public service, active duty military service, certain periods of leave and previously refunded VRS service as credit in their plan.

VRS administers two defined benefit plans for local government employees - Plan 1 and Plan 2:

- Members hired before July 1, 2010 and who have service credits before July 1, 2010 are covered under Plan 1. Non-hazardous duty members are eligible for an unreduced retirement benefit beginning at age 65 with at least five years of service credit or age 50 with at least 30 years of service credit. They may retire with a reduced benefit early at age 55 with at least 5 years of service credit or age 50 with at least 10 years of service credit.

COUNTY OF WARREN, VIRGINIA

Notes to Financial Statements
June 30, 2012 (Continued)

NOTE 9—DEFINED PENSION BENEFIT OBLIGATION:

A. Plan Description: (Continued)

- Members hired or rehired on or after July 1, 2010 and who have no service credits before July 1, 2010 are covered under Plan 2. Non-hazardous duty members are eligible for an unreduced benefit beginning at their normal Social Security retirement age with at least five years of service credit or when the sum of their age and service equals 90. They may retire with a reduced benefit as early as age 60 with at least five years of service credit.
- Eligible hazardous duty members in Plan 1 and Plan 2 are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. These members include sheriffs, deputy sheriffs and hazardous duty employees of political subdivisions that have elected to provide enhanced coverage for hazardous duty service. They may retire with a reduced benefit as early as age 50 with at least five years of service credit. All other provisions of the member's plan apply.

The VRS Basic Benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the member's average final compensation multiplied by the member's total service credit. Under Plan 1, average final compensation is the average of the member's 36 consecutive months of highest compensation. Under Plan 2, average final compensation is the average of the member's 60 consecutive months of highest compensation. The retirement multiplier for non-hazardous duty members is 1.70%. The retirement multiplier for sheriffs and regional jail superintendents is 1.85%. The retirement multiplier for eligible political subdivision hazardous duty employees other than sheriffs and jail superintendents is 1.70% or 1.85% as elected by the employer. At retirement, members can elect the Basic Benefit, the Survivor Option, a Partial Lump-Sum Option Payment (PLOP) or the Advance Pension Option. A retirement reduction factor is applied to the Basic Benefit amount for members electing the Survivor Option, PLOP or Advance Pension Option or those retiring with a reduced benefit.

Retirees are eligible for an annual cost-of-living adjustment (COLA) effective July 1 of the second calendar year of retirement. Under Plan 1, the COLA cannot exceed 5.00%; under Plan 2, the COLA cannot exceed 6.00%. During years of no inflation or deflation, the COLA is 0.00%. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The system issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of the most recent report may be obtained from the VRS Web site at <http://www.varetire.org/Pdf/Publications/2011-annual-report.pdf> or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

B. Funding Policy

Plan members are required by Title 51.1 of the Code of Virginia (1950), as amended, to contribute 5.00% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. In addition, the County and School Board are required to contribute the remaining amounts necessary to fund their participation in the VRS using the actuarial basis specified by the Code of Virginia and approved by the VRS Board of Trustees. The County's contribution rate for the fiscal year ended 2012 was 9.85% of annual covered payroll. The School Board's contribution rates for fiscal year 2012 were 6.33% for professional employees and 8.24% for non-professional employees. The County and School Board contribution rates do not include the employee's share of 5.00%.

COUNTY OF WARREN, VIRGINIA

Notes to Financial Statements
June 30, 2012 (Continued)

NOTE 9—DEFINED PENSION BENEFIT OBLIGATION: (CONTINUED)

B. Funding Policy: (Continued)

For the three years ended June 30, 2012, 2011 and 2010, total employer contributions made to the VRS statewide teacher pool for professional employees by the School Board were \$1,616,050, \$1,003,596 and \$2,343,739 and represented 6.33%, 3.93% and 8.81% (rate was 8.81% for July 2010 - March 2010 and 0% April 2010 - June 2010) of annual covered payroll, respectively, and 100% of the required contributions for 2012, 2011 and 2010.

C. Annual Pension Cost

For fiscal year 2012, the County's and School Board's (non-professional) annual pension cost, not including the employee share was \$854,891 (employee share paid by County was \$433,954) and \$237,503 (employee share paid by School Board was \$144,116) which were equal to the County and School Board's required and actual contributions, respectively.

Three-Year Trend Information for County - Primary Government

Fiscal Year Ending	Annual Pension Cost (APC) ¹	Percentage of APC Contributed	Net Pension Obligation
June 30, 2010	\$ 741,264	\$ 100%	-
June 30, 2011	871,030	100%	-
June 30, 2012	854,891	100%	-

¹ Employer portion only.

Three-Year Trend Information for School Board - Non-professional

Fiscal Year Ending	Annual Pension Cost (APC) ¹	Percentage of APC Contributed	Net Pension Obligation
June 30, 2010	\$ 214,598	\$ 100%	-
June 30, 2011	227,414	100%	-
June 30, 2012	237,503	100%	-

¹ Employer portion only.

COUNTY OF WARREN, VIRGINIA

Notes to Financial Statements
June 30, 2012 (Continued)

NOTE 9—DEFINED PENSION BENEFIT OBLIGATION: (CONTINUED)

C. Annual Pension Cost: (Continued)

The FY 2012 required contribution was determined as part of the June 30, 2009 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2009 included (a) an investment rate of return (net of administrative expenses) of 7.50%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year. Both the investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the County's and School Board's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The County's and School Board's unfunded actuarial accrued liability is being amortized as a level percentage of projected payrolls on an open basis. The remaining amortization period at June 30, 2009 for the Unfunded Actuarial Accrued Liability (UAAL) was 20 years.

D. Funded Status and Funding Progress

County

As of June 30, 2011, the most recent actuarial valuation date, the plan was 78.70% funded. The actuarial accrued liability for benefits was \$31,826,557, and the actuarial value of assets was \$25,047,978, resulting in an unfunded actuarial accrued liability (UAAL) of \$6,778,579. The covered payroll (annual payroll of active employees covered by the plan) was \$8,879,673, and ratio of the UAAL to the covered payroll was 76.34%.

School Board

As of June 30, 2011, the most recent actuarial valuation date, the plan was 85.30% funded. The actuarial accrued liability for benefits was \$8,014,204, and the actuarial value of assets was \$6,835,886, resulting in an unfunded actuarial accrued liability (UAAL) of \$1,178,318. The covered payroll (annual payroll of active employees covered by the plan) was \$2,859,402, and ratio of the UAAL to the covered payroll was 41.21%.

The schedule of funding progress, presented as Required Supplementary Information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability (AAL) for benefits.

COUNTY OF WARREN, VIRGINIA

Notes to Financial Statements
June 30, 2012 (Continued)

NOTE 10—DEFERRED REVENUE:

Deferred revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Deferred revenue totaling \$15,965,503 is comprised of the following:

Primary Government-Deferred Property Taxes - Deferred revenue representing deferred property tax revenues totaled \$14,945,508.

General fund:	
Delinquent taxes not collected within 60 days	\$ 3,856,688
2nd half property tax assessments	9,966,366
Sanitary districts:	
Delinquent taxes not collected within 60 days	405,742
2nd half property tax assessments	<u>716,712</u>
Total	<u>\$ 14,945,508</u>

Prepaid Property Taxes - Property taxes due subsequent to June 30, 2012, but paid in advance by the taxpayers totaled \$981,549 in the General Fund and \$27,778 in the Sanitary districts fund at June 30, 2012.

Miscellaneous Revenue - Revenue received in advance as of June 30, 2012 totaled \$10,668 reported in the General fund.

NOTE 11—COMMITMENTS AND CONTINGENCIES:

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the government expects such amounts, if any, to be immaterial.

At June 30, 2012 the County had the following material construction contracts outstanding:

<u>Project</u>	<u>Outstanding at June 30, 2012</u>
Warren County Middle School roof	\$ 1,448,013

COUNTY OF WARREN, VIRGINIA

Notes to Financial Statements
June 30, 2012 (Continued)

NOTE 11—COMMITMENTS AND CONTINGENCIES: (CONTINUED)

Series 1996 Bond - Route 340/522 Water and Sewer Project - Support Agreement

The Industrial Development Authority of the Town of Front Royal and the County of Warren, Virginia (“IDA”) issued revenue bonds dated November 26, 1996 in the amount of \$4,125,000 to finance construction of a water and sewer project located near Route 340/522. The bonds were subsequently refinanced with the issuance of the Refunding Bonds on March 1, 2005 in the amount of \$3,300,000. The Town of Front Royal (“Town”) is the owner and operator of the water and sewer assets constructed.

The County and Town entered into a debt support agreement with the IDA whereby pledging financial support to satisfy the annual bond debt service payments. The County and Town agreed to provide support equal to 80% and 20%, respectively, of the annual debt service. In accordance with the Support Agreement and Bond Documents, the County is to budget annually the payment to the IDA. However, in any year the County does not budget and provide the annual financial support, the IDA is liable for 100% of the bond debt service payment. Therefore, the County has not recorded the annual support agreement as a long-term liability in the financial statements.

Details of the IDA bond, including the County’s related support obligation are as follows:

Fiscal Year	IDA Long-term Debt		County Commitment - 80%	
	Principal	Interest	Principal	Interest
2013	\$ 285,000	\$ 50,170	\$ 228,000	\$ 40,136
2014	300,000	39,670	240,000	31,736
2015	305,000	28,810	244,000	23,048
2016	320,000	17,591	256,000	14,073
2017	330,000	5,924	264,000	4,739

NOTE 12—SOLID WASTE LANDFILL CLOSURE AND POSTCLOSURE CARE COSTS:

The County has closed a previously operated solid waste landfill and transfer station in such a manner as to comply with laws and regulations administered by the United States Environmental Protection Agency and Virginia Department of Waste Management State and federal laws and regulations require the County to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for after closure. The \$584,492 reported as landfill closure care, postclosure care and corrective action liability at June 30, 2012, represents the cumulative amount reported based on the use of 100% percent of the estimated capacity of the landfill. The County has closed the landfill. These amounts are based on what it would cost to perform all closure and postclosure care in 2012. Actual costs may be higher due to inflation, changes in technology, or changes in regulations.

The County has demonstrated financial assurance requirements for postclosure care, and corrective action costs through the submission of a Local Government Financial Test to the Virginia Department of Environmental Quality in accordance with Section 9VAC20-70 of the Virginia Administrative Code. The County intends to fund these costs from accumulated funds held in the general fund. The liability the County provides financial assurance is different than the actual liability reported in the financial statements due to actual costs expended.

COUNTY OF WARREN, VIRGINIA

Notes to Financial Statements
June 30, 2012 (Continued)

NOTE 15—RISK MANAGEMENT:

Primary Government

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County carries a broad range of insurance coverage, which management considers prudent for the protection of the County’s assets and operations. Coverage currently includes \$5,000,000 commercial general liability, \$5,000,000 automobile liability, and \$3,000,000 public officials liability. The property policy provides insurance coverage for all of the County’s real and personal property up to the replacement cost value of the asset.

Effective July 1, 2005, the County established a self-insurance health care benefit for all County employees. Claims expenses paid on behalf of each employee during a single policy year are covered by excess loss insurance with a specific stop-loss limit of \$80,000. The maximum annual liability to 115% of the expected annual liability through the purchase of aggregate stop loss insurance. Claims processing and payments for all health care claims are made through a third-party administrator. The County uses information provided by the third-party administrator and a health care administrator and a health care benefits consultant to aid in the determination of self-insurance liabilities. The computed liability as of June 30, 2012 is \$172,437, and calculated as follows:

<u>Fiscal Year</u>	<u>Liability beginning of year</u>	<u>Current year claims and changes in estimates</u>	<u>Claims payments</u>	<u>Liability end of year</u>
2010	\$ 151,733	\$ 1,664,307	\$ 1,685,166	\$ 130,874
2011	130,874	1,885,308	1,861,513	154,669
2012	154,669	1,978,458	1,960,690	172,437

Schools Component Unit

Effective October 1, 1993, Warren County Public Schools established a self-insurance health care benefit for all school employees. Claims expenses paid on behalf of each employee during a single policy year are covered by excess loss insurance with a specific stop-loss limit of \$100,000. The maximum annual liability to 115% of the expected annual liability through the purchase of aggregate stop loss insurance. Claims processing and payments for all health care claims are made through a third-party administrator. The Schools use information provided by the third-party administrator and a health care administrator and a health care benefits consultant to aid in the determination of self-insurance liabilities. The computed liability as of June 30, 2012 is \$337,000, and calculated as follows:

<u>Fiscal Year</u>	<u>Liability beginning of year</u>	<u>Current year claims and changes in estimates</u>	<u>Claims payments</u>	<u>Liability end of year</u>
2010	\$ 365,315	\$ 4,790,060	\$ 4,824,654	\$ 330,721
2011	365,315	4,875,229	4,933,394	307,150
2012	307,150	4,143,675	4,113,825	337,000

COUNTY OF WARREN, VIRGINIA

Notes to Financial Statements

NOTE 15—RISK MANAGEMENT: (CONTINUED)

The Schools are exposed to various risk of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The School carries a broad range of insurance coverage, which management considers prudent for the protection of the Schools assets and operations. Coverage currently includes \$2,000,000 commercial general liability, \$2,000,000 automobile liability, and \$2,000,000 public official liability. The property policy provides insurance coverage for all of the Schools' real and personal property up to the replacement cost value of the asset.

NOTE 16—OTHER POST-EMPLOYMENT BENEFITS PROGRAM:

Background

In fiscal year 2009, the County implemented Governmental Accounting Standards Board (GASB) Statement No. 45 for other post-employment benefits (OPEB) offered to retirees. This standard addresses how local governments should account for and report their costs related to post-employment health-care and non-pension benefits, such as the County's retiree health benefit subsidy. Historically, the County's subsidy was funded on a pay-as-you go basis, but GASB Statement No. 45 requires that the County accrue the cost of the retiree health subsidy and other post-employment benefits during the period of the employees' active employment, while the benefits are being earned, and disclose the unfunded actuarial accrued liability in order to accurately account for the total future cost of post-employment benefits and the financial impact on the County. This funding methodology mirrors the funding approach used for pension benefits.

County:

A. Plan Description:

In addition to the pension benefits described in Note 9, the County provides post-retirement healthcare insurance benefits for employees who are eligible for retirement benefits. Individuals who retire from County service with full VRS benefits (i.e. 50 years of age and 30 years of continuous service) and 10 years of service with the County, will receive a subsidy contribution from 50% - 100% based on years of service, for their health insurance premium until age 65 when they become eligible for Medicare, at which time benefits cease. The retiree's spouse can receive benefits under the plan with the premium to be paid by the retiree.

B. Funding Policy:

The County establishes employer contribution rates for plan participants as part of the budgetary process each year. The County also determines how the plan will be funded each year, whether it will partially fund the plan or fully fund the plan. Again this is determined annually as part of the budgetary process. For participating retirees the County pays 50%, 75%, or 100% of the health insurance premium for retirees with 10-14, 15-19, or 20 plus years of service, respectively. Retirees pay 100% of spousal premiums. Coverage ceases when retirees reach the age of 65. Surviving spouses are not allowed access to the plan.

COUNTY OF WARREN, VIRGINIA

Notes to Financial Statements

NOTE 16—OTHER POST-EMPLOYMENT BENEFITS PROGRAM: (CONTINUED)

County: (Continued)

C. Annual OPEB Cost and Net OPEB Obligation:

The annual cost of other post-employment benefits (OPEB) under GASB 45 is called the annual required contribution or ARC. The estimated pay as you go cost for OPEB benefits is \$600,200 for fiscal year 2012. The County has paid \$150,400 towards this obligation during the fiscal year. The County is required to contribute the annual required contribution of the employer (ARC) an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The estimated contributions are based on projected medical premium payments, County contributions and credit for the implicit rate subsidy made during the year for the retirees by the County. The following table shows the components of the County's annual OPEB cost for the year, the estimated annual contributions to the plan, and changes in the County's net OPEB obligation.

Annual required contribution	\$	601,300
Interest on net OPEB obligation		50,300
Adjustment to annual required contribution		<u>(51,400)</u>
Annual OPEB cost (expense)	\$	600,200
Estimated contributions made		<u>(150,400)</u>
Increase in net OPEB obligation	\$	449,800
Net OPEB obligation, beginning of year		<u>1,258,700</u>
Net OPEB obligation, end of year	\$	<u><u>1,708,500</u></u>

For 2012, the County's expected cash payment of \$150,400 was \$449,800 less than the OPEB cost. The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the last three fiscal years are as follows:

<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
June 30, 2010	\$ 659,880	40%	\$ 826,800
June 30, 2011	573,500	25%	1,258,700
June 30, 2012	600,200	25%	1,708,500

COUNTY OF WARREN, VIRGINIA

NOTE 16—OTHER POST-EMPLOYMENT BENEFITS PROGRAM: (CONTINUED)

County: (Continued)

C. Annual OPEB Cost and Net OPEB Obligation: (Continued)

Funded Status and Funding Progress

The funded status of the plan as of July 1, 2011 the date of the most recent actuarial valuation, is as follows:

Actuarial accrued liability (AAL)	\$ 5,539,200
Actuarial value of plan assets	-
Unfunded actuarial accrued liability	5,539,200
Funded ratio (actuarial value of plan assets / AAL)	0%
Covered payroll (active plan members)	8,234,200
UAAL as a percentage of covered payroll	67.27%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Cost Method

The entry age normal cost method is used to determine the plan's funding liabilities and costs. Under this cost method, the actuarial present value of projected benefits of every active participant as if the plan's provisions on the valuation date had always been in effect, is determined as a level percentage of expected annual earnings for each future year of expected service. A normal cost for each year from the assumed entry date is determined by applying this level percentage of pay to the assumed earnings for that year (or if benefits are not pay related, the level amount for each year).

Under these methods, inactive participants have no normal cost, and their actuarial liability is the present value of the plan benefits to which they and their beneficiaries are entitled. The plan's total annual normal cost and actuarial liability are the sum of the individual participant amounts.

COUNTY OF WARREN, VIRGINIA

Notes to Financial Statements
June 30, 2012 (Continued)

NOTE 16—OTHER POST-EMPLOYMENT BENEFITS PROGRAM: (CONTINUED)

County: (Continued)

C. Annual OPEB Cost and Net OPEB Obligation: (Continued)

Cost Method: (Continued)

An experience gain or loss is a decrease or increase in the unfunded actuarial liability attributable to actual experience that differed from that expected by the actuarial assumptions. Such gains or losses are explicitly recognized under this method.

Assumptions

Discount rate (unfunded)	4.00%
Amortization payment increase rate	2.50%
Amortization period	30 years
Health care trend rates	9% - 5%

The unfunded accrued actuarial liability is being amortized as a level percent of projected payroll on an open basis. The remaining amortization period at the date of the valuation was 30 years.

School Board:

A. Plan Description:

In addition to the pension benefits described in Note 9, the School Board provides post-retirement healthcare insurance benefits for employees who are eligible for retirement benefits. Individuals who retire from the School Board with full VRS benefits (i.e. 50 years of age and 30 years of continuous service) including 5 years of service with the School Board are eligible for health insurance benefits under the School Board's plan for active employees. The retiree's spouse can receive benefits under the plan with the premium to be paid by the retiree.

B. Funding Policy:

The School Board establishes employer contribution rates for plan participants as part of the budgetary process each year. The School Board also determines how the plan will be funded each year, whether it will partially fund the plan or fully fund the plan. Again this is determined annually as part of the budgetary process. Retirees pay the full premium for health insurance coverage. Retirees pay 100% of spousal premiums. Coverage ceases when retirees reach the age of 65. Surviving spouses are not allowed access to the plan.

NOTE 16—OTHER POST-EMPLOYMENT BENEFITS PROGRAM: (CONTINUED)

School Board: (Continued)

C. Annual OPEB Cost and Net OPEB Obligation:

The annual cost of other post-employment benefits (OPEB) under GASB 45 is called the annual required contribution or ARC. The estimated pay as you go cost for OPEB benefits is \$265,800 for fiscal year 2012. The School Board has paid \$153,300 towards this obligation during the fiscal year. The School Board is required to contribute the annual required contribution of the employer (ARC) an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The estimated contributions are based on projected medical premium payments and credit for the implicit rate subsidy made during the year for the retirees by the School Board. The following table shows the components of the School Board's annual OPEB cost for the year, the estimated annual contributions to the plan, and changes in the School Board's net OPEB obligation.

Annual required contribution	\$ 266,100
Interest on net OPEB obligation	14,100
Adjustment to annual required contribution	<u>(14,400)</u>
Annual OPEB cost (expense)	\$ 265,800
Estimated contributions made	<u>(153,300)</u>
Increase in net OPEB obligation	112,500
Net OPEB obligation, beginning of year	<u>353,200</u>
Net OPEB obligation, end of year	<u><u>\$ 465,700</u></u>

For 2012, the School Board's expected cash payment of \$153,300 was \$112,500 less than the OPEB cost. The School Board's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the last three fiscal years are as follows:

<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
June 30, 2010	\$ 186,720	40%	\$ 233,200
June 30, 2011	257,100	47%	353,200
June 30, 2012	265,800	58%	465,700

Funded Status and Funding Progress

The funded status of the plan as of July 1, 2011, the date of the most recent actuarial valuation, is as follows:

Actuarial accrued liability (AAL)	\$	2,735,200
Actuarial value of plan assets		-
Unfunded actuarial accrued liability		2,735,200
Funded ratio (actuarial value of plan assets / AAL)		0%
Covered payroll (active plan members)		17,607,400
UAAL as a percentage of covered payroll		15.53%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Cost Method

The entry age normal cost method is used to determine the plan's funding liabilities and costs. Under this cost method, the actuarial present value of projected benefits of every active participant as if the plan's provisions on the valuation date had always been in effect, is determined as a level percentage of expected annual earnings for each future year of expected service. A normal cost for each year from the assumed entry date is determined by applying this level percentage of pay to the assumed earnings for that year (or if benefits are not pay related, the level amount for each year).

Under these methods, inactive participants have no normal cost, and their actuarial liability is the present value of the plan benefits to which they and their beneficiaries are entitled. The plan's total annual normal cost and actuarial liability are the sum of the individual participant amounts.

The unfunded accrued actuarial liability is being amortized as a level percent of projected payroll on an open basis. The remaining amortization period at the date of the valuation was 30 years.

Health Insurance Credit Program

A. Plan Description

The School Board participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is a cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service. The credit amount and eligibility differs for state, school division, political subdivision, local officer, local social services department and general registrar retirees.

A teacher, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$4 per year of creditable service. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive a monthly health insurance credit of \$4 multiplied by the smaller of (i) twice the amount of their creditable service or (ii) the amount of creditable service they would have completed at age 60 if they had remained in service to that age.

Benefit provisions and eligibility requirements are established by Title 51.1, Chapter 14 of the Code of Virginia. The VRS actuarially determines the amount necessary to fund all credits provided, reflects the cost of such credits in the applicable employer contribution rate pursuant to §51.1-145, and prescribes such terms and conditions as are necessary to carry out the provisions of the health insurance credit program. VRS issues separate financial statements as previously discussed.

B. Funding Policy

The School Board is required to contribute, at an actuarially determined rate, the entire amount necessary to fund participation in the program. The current rate is .60% of annual covered payroll. The School Board's contributions to VRS for the years ended June 30, 2012, 2011, and 2010 were \$153,180, \$153,221 and \$207,504, respectively and equaled the required contributions for each year.

Fund balances - ending	\$ -	\$ 644,956	\$ -	\$ 95,694	\$ 232,523	\$ 973,173

Amounts reported for governmental activities in the statement of activities (Exhibit 2) are different because:

Net change in fund balances - total governmental funds - per above	\$ (75,094)
--	-------------

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. The following are adjustments related to capital assets reported in the current period.

Capital asset additions	185,672
Depreciation expense	(673,229)
	(487,557)

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Principal payments on capital leases	\$ 92,021	92,021
--------------------------------------	-----------	--------

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.

(Increase) decrease in other post employment benefits liability	(112,500)
(Increase) decrease in compensated absences	(105,333)
	(217,833)

Internal service funds are used by management to charge the costs of certain activities, such as insurance and telecommunications, to individual funds. The net revenue (expense) of certain internal service funds is reported with governmental activities.

174,743

Change in net assets of governmental activities	\$ (513,720)

Other Statistical Information

Contents

Tables

Financial Trends

These tables contain trend information to help the reader understand how the the County's financial performance and well-being have changed over time.

1 - 6

Revenue Capacity

These tables contain information to help the reader assess the factors affecting the County's ability to generate its property and sales taxes.

7 - 10

Debt Capacity

These tables present information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue debt in the future.

11 - 12

Demographic and Economic Information

These tables offer demographic and economic indicators to help the reader understand the environment within which the County's financial activities take place and to help make comparisons over time and with other governments.

13 - 14

Sources: Unless otherwise noted, the information in these tables is derived from the annual financial reports for the relevant year.

COUNTY OF WARREN, VIRGINIA

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To The Honorable Members of the Board of Supervisors
County of Warren, Virginia
Front Royal, Virginia

We have audited the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of County of Warren, Virginia, as of and for the year ended June 30, 2012, which collectively comprise the County of Warren, Virginia's basic financial statements and have issued our report thereon dated December 5, 2012. We did not audit the financial statements of the Industrial Development Authority. Those statements were audited by other auditors who report has been furnished to us and our opinion on the financial statements and this report on internal controls, compliance and other matters insofar as they relate to the Industrial Development Authority are based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

Management of County of Warren, Virginia is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered County of Warren, Virginia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of County of Warren, Virginia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County of Warren, Virginia's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether County of Warren, Virginia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, Board of Supervisors, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**Independent Auditors' Report on Compliance with Requirements That Could
Have a Direct and Material Effect on Each Major Program and on Internal Control
Over Compliance in Accordance with OMB Circular A-133**

To The Honorable Members of the Board of Supervisors
County of Warren, Virginia
Front Royal, Virginia

Compliance

We have audited County of Warren, Virginia's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of County of Warren, Virginia's major federal programs for the year ended June 30, 2012. County of Warren, Virginia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of County of Warren, Virginia's management. Our responsibility is to express an opinion on County of Warren, Virginia's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about County of Warren, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of County of Warren, Virginia's compliance with those requirements.

In our opinion, County of Warren, Virginia complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012.

Internal Control Over Compliance

Management of County of Warren, Virginia is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered County of Warren, Virginia's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of County of Warren, Virginia's internal control over compliance.

Internal Control Over Compliance: (Continued)

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, Board of Supervisors, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

COUNTY OF WARREN, VIRGINIA

Notes to Schedule of Expenditures of Federal Awards
For the Year Ended June 30, 2012

Note 1 - Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards ("Schedule") includes the federal grant activity of the County of Warren, Virginia under programs of the federal government for the year ended June 30, 2012. The information in this Schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Because the Schedule presents only a selected portion of the operations of the County of Warren, Virginia, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the County of Warren, Virginia.

Note 2 - Summary of Significant Accounting Policies

(1) Expenditures on the Schedule are reported on the accrual basis of accounting. Expenditures are recognized following the cost principles provided in OMB Circular A-87, *Cost Principles for State, Local, and Indian Tribal Governments*, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

(2) Pass-through entity identifying numbers are presented where available.

Note 3 - Food Donation

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and distributed.

Note 4 - Relationship to Financial Statements

Federal expenditures, revenues and capital contributions are reported in the County's basic financial statements as follows:

Intergovernmental federal revenues per the basic financial statements:

Primary government:

General fund		\$	2,106,954
Less: Build America Bond interest subsidy			(105,525)
Total primary government		\$	<u>2,001,429</u>

Component Unit - Warren County Public Schools:

School operating fund		\$	4,723,292
Less: E-Rate			(54,069)
Department of the Interior - Payments in lieu of taxes	15.226		(50,481)
Total component unit public schools		\$	<u>4,618,742</u>

Total federal expenditures per basic financial statements \$ 6,620,171

Total federal expenditures per the Schedule of Expenditures of Federal Awards \$ 6,620,171
