GROUP RESERVATION INFORMATION

Group Arrival

Groups wishing to make group reservations are required to fill out a Group Reservation Form at the Youth Center. On the day of the reservation, groups are asked to assemble behind a supervisor in an orderly line and the supervisor should announce their arrival and pay the appropriate fee at the admission desk. At this time, the Manager on duty may wish to briefly discuss pool safety policies and rules. The group may then proceed to the pool area. Leaders should accompany the group members into the locker and shower areas. Be aware that children frequently lose their clothing because they do not properly use the lockers. The Warren County Department of Parks and Recreation is not responsible for lost or stolen articles.

Group Areas

After having showers and before entering the pool, group members should reassemble in an area on the pool deck selected by the group supervisor. A supervisor should remain at this location at all times so that children will know where a leader is when they need assistance, and that someone is present to watch over the towels and other personal articles.

Safety Breaks

Safety breaks are called at ten minutes to every hour and all swimmers, excluding pool staff lifeguards, are required to leave the pool. At the start of these breaks, group members should return to their designated area, and supervisors should check for any problems, such as fatigue, sunburn, lost children, etc. As children need to use the restrooms or food concession, a supervisor should accompany them to help maintain discipline.

Leader Responsibility

It is the responsibility of group supervisors to control the behavior of group members. It is the pool staff's responsibility to maintain safe swimming conditions and to respond to emergencies. Listed below are some recurring problems in leader responsibility:

- (i) Groups frequently do not have a ratio of one supervisor to ten children.
- (ii) Leaders and group members are not familiar with pool or park rules and regulations.
- (iii) Leaders tend to congregate and neglect their groups. They should be in the water or at the pool's edge monitoring their group. They should give special attention to diving boards, deep water, restrooms and concessions.
- (iv) Groups do not arrive as a unit.
- (v) Leaders often do not become familiar with group members' swimming abilities and physical limitations. They should be aware of any serious allergies or required medications, and in potentially extreme cases, should report these to the Manager on duty.
